

Navigation

The model can be navigated as a normal web page, using the standard browser functionality. You can navigate by mouse and by keyboard, using the Enter, Shift and Tab keys. This includes navigation between the groups and items in the model diagram.

The ARTIS operations can be activated by [hotkeys](#) or by using the ARTIS context menus.

To avoid the possible loss of unsaved work, ARTIS asks for confirmation before closing the browser tab and some default web browser keyboard shortcuts have been disabled.

Whenever possible, ARTIS automatically sets the focus as might be convenient for the user.
